Multivitamin/Mineral Supplements Promote Healthy Nutrient Intake[‡]

Today's diets are often depleted of vitamins, minerals and other nutrients due to the quality of our food and busy lifestyles. Combining a healthy diet with a comprehensive multivitamin like **O.N.E.™ Multivitamin** can help replenish nutrients daily for optimal health and longevity.[‡]

In a 2017 examination of The National Health and Nutrition Examination Survey (NHANES) data, multivitamin/mineral supplementation was associated with decreased nutrient inadequacies ($p < 0.01$) for 15/17 nutrients examined, compared to food intake alone.²
